

OXYMAT®

QUALITY POLICY

At OXYMAT it is our mission to stay the preferred supplier of reliable, compact and low-energy PSA generators for production of oxygen and nitrogen gas. To fulfil this mission, we strive to adhere the highest quality standards in all aspects; to provide high quality product and service to our customer through the life cycle of the product.

TO ACHIEVE THIS, WE ARE COMMITTED TO:

- sustain, keep up-to-date and continually improve the effectiveness of our integrated management system, by the means of efficient business processes, well-defined measurements, decision making according to facts and results and by promoting risk-based thinking
- continuously enhance knowledge and skills of our employees through regular trainings
- effectively use processes, resources and employee knowledge to design, manufacture and deliver quality products

- satisfy customers by meeting their requirements
- proactively seek customer feedback and appropriately address them
- continually audit, evaluate and communicate with external suppliers

- comply with the latest version of all applicable regulations, legislations and directives
